Proven track record in leading product strategies and development for enterprise-level and venture-backed companies. Skilled in building and guiding high-performing teams to drive product innovation and deliver impactful solutions.

WORK EXPERIENCE

Product Lead

VMWare Tanzu Labs | Sep 2021 - Present | Remote, Globally distributed team

Tanzu Labs (formerly Pivotal Labs) is a consulting firm to Fortune 100 companies on product strategy and delivery

- Spearheaded the resolution of critical issues for Kohl's Digital Signs, enhancing 3 million digital sign instances and generating \$44M in revenue in the first year.
- Directed the development and delivery of a new wealth management product for Wells Fargo, successfully onboarding 35,000 financial advisors after two previous attempts to build and launch by Wells Fargo had failed.
- Launched Sorenson Communications' first web application in a decade, reaching customers in 7 languages across four continents within year one.
- Steered the transformation of the Abbott Lingo product organization through a 70% downsizing, resulting in increased team productivity which maintained pace with a reduced headcount.
- Led cross functional team to create Labs' generative AI services strategy and create a new business line

Interim Director of Product

Bridge | Jan 2021 - Sep 2021 | Remote, Globally distributed team

Bridge is SAAS tool used by the world's leading VCs and to build networks and facilitate introductions

- Grew MAUs by 82% by ingraining processes for customer feedback and user research, creating a clear product strategy and set of goals, prioritizing the product's focus and working cross-functionally with the design & engineering teams to ship features and test hypotheses so that Bridge can begin to grow outside of its power user customer base.
- Enhanced user engagement by establishing a robust user testing and interview framework which increased weekly customer conversations 5x.

Head of Product

Tot Squad | Feb 2020 - Jun 2021 | Remote, USA distributed team

Tot Squad is a leading parent & baby care service marketplace

- Launched a B2C marketplace generating over \$10k in monthly revenue, despite the challenges of the COVID-19 pandemic.
- Hired, and managed a cross-functional 10-person team of software engineers, business analysts, product managers, and designers.
- Transitioned the company from a services business to a technology-focused marketplace for parent and baby care services.

Head of Growth, Product

Grilla | Jan 2019 - Feb 2020 | Remote, Globally distributed team

Grilla was a seed funded tech startup taking on commercial videography with technology

- Led the product team in developing and scaling an innovative video production platform, achieving \$10k monthly revenue by the third month.
- Organized the working cadence within the company, leveraging agile methodologies and setting OKRs, to productively run retrospectives, sprints, and product.

Co-founder, Product & Operations

Flex | May 2016 - Jan 2019 | London UK, Globally distributed team

Flex was a direct to consumer wearable enabled gamified fitness technology company

- Created a gamified live-streaming fitness platform where members would maintain accountability and intensity by having their Apple Watch count and publicize their reps during a workout using machine learning.
- Increased user activation rates from 13% to 75% by iterating on product design and user engagement strategies. (Industry standard is below 15%)

Co-founder, Product & Operations

Sauce Apps | Aug 2014 - May 2016 | London UK

Sauce was a marketing analytics platform for ecommerce stores used by Shopify's largest brands

- Created a marketing personalization platform for e-commerce, leading to strategic partnerships and a successful acquisition by BV Accel.
- Drove product development through user research, resulting in over \$10k in recurring monthly revenue within one year.

Senior Associate

PwC | Sept 2011 - Aug 2014 | London UK

PwC is a global management consulting and financial services firm

- Led a 10-person audit team in financial reporting for complex reviews and rigorous public filing regulations while performing detailed FP&A to inform business decisions and ensure IFRS and GAAP compliance.

EDUCATION & OTHER EXPERIENCE

BEng Hons: Civil Engineering (Magna Cum Laude)

University of Southampton | June 2011

Chartered Accountant

Institute of Chartered Accountants in England and Wales | October 2014

Additional courses on Product, Javascript, Ruby, Business & Strategy

Stanford University, London Business School, University of Maryland, University of Virginia, Udemy & Skillshare
